

The technical features of tenders which have passed Stages 1 and 2 assessment will be further assessed in accordance with the criteria stated in the marking schemes specified in Annex D - Detailed Evaluation Criteria and Marking Scheme to Part 3B.

- (ii) For calculating the weighted technical score which accounts for 70% of the final combined score, the highest scoring tender after the above assessment will be given the maximum weighted technical score of 70 and the remaining tenders will be given a weighted technical score in accordance with the following formula:

$$\begin{array}{c} \text{Weighted technical} \\ \text{score of a tender that} \\ \text{has passed Stages 1, 2} \\ \text{and 3 evaluation} \end{array} = 70 \times \frac{\begin{array}{c} \text{Total mark attained by the} \\ \text{tender being assessed} \\ \text{Highest total mark among} \\ \text{the tenders that have passed} \\ \text{Stages 1, 2 and 3 evaluation} \end{array}}$$

Those tenders which have passed Stage 3 evaluation will proceed to Stage 4 evaluation.

(d) Stage 4 – Price Assessment

The price assessment of those tenders which have passed Stage 3 will be evaluated as follows:

The lowest Estimated Contract Price submitted by a Tenderer amongst all other Tenderers that have passed Stages 1, 2, 3 and 4 evaluation will be given the highest weighted price score of 30 and the remaining tenders will be given a weighted price score in accordance with the following formula:

$$\begin{array}{c} \text{Weighted price score} \\ \text{of a tender that has} \\ \text{passed Stages 1, 2, 3} \\ \text{and 4 evaluation} \end{array} = 30 \times \frac{\begin{array}{c} \text{Lowest Estimated Contract Price} \\ \text{among the tenders that have passed} \\ \text{Stages 1, 2, 3 and 4 evaluation} \\ \text{Estimated Contract Price of the} \\ \text{tender being assessed} \end{array}}$$

(Note: The Estimated Contract Price is the total price as specified in Table 3 in the Price Schedule which comprises Lump Sum Charge (after discount) and Estimated Monthly Charges for thirty (30) months.)
